A Breakthrough in Natural and Safe Menopause Management

AVENZOR LadyCare for the Menopause

Unique the world over (patented) - Class 1 Medical device in UK

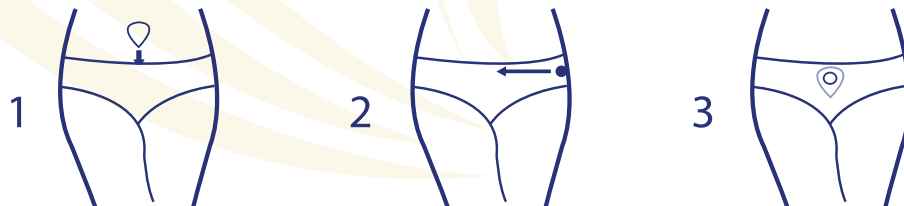

LadyCare is designed to help women suffering with menopausal symptoms to include those that are surgically menopausal (hysterectomy/ovaries removed) by rebalancing the autonomic nervous system (ANS) this imbalance during menopause is responsible for most of the symptoms.

A large 508 women survey in UK was conducted to investigate the effect of LadyCare on women who complained of menopause symptoms. The data was analysed by an Independent third party statistician. The data showed a significant reduction in the majority of common menopause symptoms for one month and even greater effects After 3 months wearing the device after wearing the device daily

'LadyCare Voted No.1 natural alternative to HRT is a proven and unique product, with positive customer feedback.

During the three months of the trial, Significant Benefits were reported on the following:

- Hot flushes
- Heart palpitations (feeling your heart racing)
- Irritability
- Mood swings
- Sudden tears
- Loss of libido, sex drive
- Anxiety
- Fatigue
- Feelings of doom and dread
- Vaginal dryness/Painful intercourse
- Inability to concentrate
- Trouble sleeping
- Urinary incontinence upon sneezing or laughing
- Itchy, crawly skin
- Sudden weight gain
- Hair loss
- Stomach problems: indigestion and gas
- Painful and sore muscles, tendons and joints
- Breast soreness, tenderness
- Irregular vaginal bleeding
- Disturbing lapses of memory
- Increased muscle tension
- Bladder infections

Mechanism of action:

LadyCare seems to correct this nervous system imbalance; specifically enhancing the parasympathetic activity. This provides a plausible explanation for the relief of menopause symptoms by LadyCare and also for the reduction of period pain by MN8

How to use:

"LadyCare is a small powerful, static magnetic device that simply attaches discreetly and comfortably to your underwear.

LadyCare is a safe, drug free product designed to reduce the symptoms of menopause..

.....for as long as you need it.

“Exclusive Middle East Agent”

A Breakthrough in Natural and Safe Menopause and period Pain Management

AVENZOR Mn8

Unique the world over (patented) - Class 1 Medical device

A discreet powerful medical device which attaches simply but firmly to the underwear over the pelvis

Mn8 Police Women's Trial

A survey involving 39 British Police Women

Saw a 93% reduction in period pain.

71% saw an improvement in concentration. Most importantly 100% did NOT take time off work.

Perfectly safe for children and teenagers.

For breast tenderness, wear your mn8 inside your bra

Mechanism of action:

MN8 is believed to reduce period pain by improving circulation in the pelvic area, increasing blood oxygen levels to the uterine muscles which reduce lactic acid. MN8 has also for many years helped thousands with Endometriosis and Polycystic Ovaries.

How to use:

Every month simply attach your mn8 to your under clothes in the pelvic area at least a day before and during menstruation. For breast tenderness, wear your mn8 inside your bra. It has been reported for many years that mn8 helps with Endometriosis.

4 period pain mn8
